[Approved by Governor September 29, 2006. Filed with  
Secretary of State September 29, 2006.]

#### LEGISLATIVE COUNSEL'S DIGEST

SB 1849, Committee on Business, Professions and Economic Development. Professions and vocations.

(1) Existing law requires the Cemetery and Funeral Bureau to conduct a comprehensive study on the need to regulate third-party casket retailers and on the need for the regulation of proprietary employees of religious corporations, churches, religious societies, and religious denominations, and to report to the Department of Consumer Affairs and to the Joint Committee on Boards, Commissions and Consumer Protection by September 1, 2004.

This bill would repeal these provisions.

(2) Existing law, the Proprietary Security Services Act, requires a person who meets the definition of a proprietary private security officer to register with the Department of Consumer Affairs.

This bill would authorize a person registered with the department as a proprietary private security officer to request a review by the private security disciplinary review committee, which is established in the Private Security Services Act, to contest the assessment of an administrative fine or to appeal a denial, revocation, or suspension of registration.

(3) Existing law, the Private Security Services Act, provides for the licensing and regulation of private security services and establishes two private disciplinary review committees to perform specified functions relative to various private security services.

This bill would require those private disciplinary review committees to expand their functions to include reviews of registered proprietary private security officers.

(4) Existing law provides for the licensing and regulation of professional engineers and land surveyors by the Board of Professional Engineers and Land Surveyors in the Department of Consumer Affairs. Existing law specifies that a person practices land surveying when he or she does or offers to do, among other things, certain acts regarding the

earth's surface or relative fixed objects and geodetic or cadastral surveying. Existing law makes practicing or offering to practice engineering or land surveying without legal authorization a crime.

This bill would revise the acts that constitute the practice of civil engineering to include determining the configuration of the earth's surface or the position of fixed objects above, on, or below the surface of earth by applying the principles of trigonometry or photogrammetry. The bill would revise the acts that constitute the practice of civil engineering or the practice of land surveying to include rendering a statement regarding the accuracy of maps or measured survey data. The bill would also revise the definition of geodetic or cadastral surveying.

Because this bill would expand the definitions of civil engineering and land surveying, the unauthorized practice or offer to practice of which is a crime, it would impose a state-mandated local program.

(5) Existing law, the Automotive Repair Act, establishes in the Department of Consumer Affairs a Bureau of Automotive Repair under the supervision and control of the Director of Consumer Affairs. Existing law authorizes the director to refuse to validate, or to temporarily or permanently invalidate, the registration of an automotive repair dealer for specified acts or omissions related to the conduct of the business of the automotive repair dealer.

This bill would make technical changes to those provisions.

(6) Existing law, the Real Estate Law, exempts personal property brokers, commercial finance lenders, and consumer finance lenders from certain reporting and disclosure requirements relative to loans secured by real property.

This bill would delete personal property brokers, commercial finance lenders, and consumer finance lenders from these exemptions and instead provide that finance lenders are exempt from the reporting and disclosure requirements.

(7) Existing law, the Home Furnishings and Thermal Insulation Act, requires all mattresses and box springs manufactured for sale in this state to be fire retardant. Existing law requires the Bureau of Home Furnishings and Thermal Insulation to adopt regulations by January 1, 2004, requiring that fire retardant mattresses and box springs meet a specified resistance to open flame test.

This bill would, effective July 1, 2007, change the criteria for fire retardant mattresses and mattress sets to the standards for resistance to open-flame test adopted by the United States Consumer Product Safety Commission. The bill would require that other bedding products that the bureau determines contribute to mattress fires comply with regulations adopted by it.

(8) Existing law requires process servers to be registered with the county clerk of the county in which he or she resides or has a principal place of business. Existing law requires a process server, at the time of filing an initial certificate of registration, to also submit 2 completed fingerprint cards for submission to the Department of Justice and the

Federal Bureau of Investigation in order to verify that the process server has not been convicted of a felony.

This bill would require a process server, at the time of filing an initial certificate of registration, to submit a completed Request for Live Scan form instead of the fingerprint cards, and would make related changes.

(9) Existing law requires the Department of Consumer Affairs to compile and maintain statistical and emission profiles of motor vehicles that are subject to the motor vehicle inspection program. Existing law authorizes the department to conduct a pilot program to except specified vehicles from certain biennial certification requirements. Existing law requires the department as part of the pilot program to, by June 30, 2000, evaluate standards for the operation of remote sensing equipment.

Existing law requires the department to offer a repair assistance program for certain individuals who have failed a smog check inspection. Existing law requires the department to collect data, develop information, and report to the Legislature by April 1, 1999, on the repair assistance program.

This bill would delete these provisions that were required to be completed by June 30, 2000, and April 1, 1999.

(10) This bill would incorporate additional changes in Section 44062.1 of the Health and Safety Code proposed by AB 1870, that would become operative only if AB 1870 and this bill are both chaptered and become effective on or before January 1, 2007, and this bill is chaptered last.

(11) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

*The people of the State of California do enact as follows:*

If the bureau concludes that other bedding contributes to mattress fires, the regulations shall require the other bedding to be flame retardant under the resistance to open-flame test. If feasible, the bureau's regulations shall permit a manufacturer to comply with the resistance to open-flame test by testing a small scale version of its product. In developing these regulations, the bureau may contract, cooperate, or otherwise share resources with other government agencies, private organizations, or independent contractors that it considers appropriate for purposes of reviewing test criteria and methods, equipment specifications, and other relevant subjects. These regulations shall become inoperative

upon the effective date of any federal law or regulation establishing an open-flame resistance standard for these products. The bureau shall submit a report to the Legislature on or before January 1, 2004, summarizing its regulatory findings.

(b) Requirements for flame resistant mattresses, mattress sets, or other bedding products shall not apply to any hotel, motel, bed and breakfast, inn, or similar transient lodging establishment that has an automatic fire extinguishing system that conforms to the specifications established in Section 904.1 of Title 24 of the California Code of Regulations.

(c) All seating furniture sold or offered for sale by an importer, manufacturer, or wholesaler for use in this state, including any seating furniture sold to or offered for sale for use in a hotel, motel, or other place of public accommodation in this state, and reupholstered furniture to which filling materials are added, shall be fire retardant and shall be labeled in a manner specified by the bureau.

(d) "Fire retardant," as used in this section, means a product that meets the regulations adopted by the bureau. This does not include furniture used exclusively for the purpose of physical fitness and exercise.

(e) This section shall become inoperative on July 1, 2007, and, as of January 1, 2008, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2008, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 14. Section 19161 is added to the Business and Professions Code, to read:

19161. (a) All mattresses and mattress sets manufactured for sale in this state shall be fire retardant. "Fire retardant," as used in this section, means a product that meets the standards for resistance to open-flame test adopted by the United States Consumer Product Safety Commission and set forth in Section 1633 and following of Title 16 of the Code of Federal Regulations. The bureau may adopt regulations it deems necessary to implement those standards.

(b) All other bedding products that the bureau determines contribute to mattress bedding fires shall comply with regulations adopted by the bureau specifying that those products be resistant to open-flame ignition.

(c) All seating furniture sold or offered for sale by an importer, manufacturer, or wholesaler for use in this state, including any seating furniture sold to or offered for sale for use in a hotel, motel, or other place of public accommodation in this state, and reupholstered furniture to which filling materials are added, shall be fire retardant and shall be labeled in a manner specified by the bureau. This does not include furniture used exclusively for the purpose of physical fitness and exercise.

(d) Regulations adopted by the bureau for other bedding products shall not apply to any hotel, motel, bed and breakfast, inn, or similar transient lodging establishment that has an automatic fire extinguishing system that conforms to the specifications established in Section 904.1 of Title 24 of the California Code of Regulations.

(e) This section shall become operative on July 1, 2007.

SEC. 15. Section 22351.5 of the Business and Professions Code is amended to read:

22351.5. (a) At the time of filing the initial certificate of registration, the registrant shall also submit a completed Request for Live Scan form confirming fingerprint submission to the Department of Justice and the Federal Bureau of Investigation, in order to verify that the registrant has not been convicted of a felony. The clerk shall utilize the Subsequent Arrest Notification Contract provided by the Department of Justice for notifications subsequent to the initial certificate of registration.

(b) If, after receiving the results of the Request for Live Scan, the clerk is advised that the registrant has been convicted of a felony, the presiding judge of the superior court of the county in which the certificate of registration is maintained is authorized to review the criminal record and, unless the registrant is able to produce a copy of a certificate of rehabilitation, expungement, or pardon, as specified in paragraph (2) of subdivision (a) of Section 22351, notify the registrant that the registration is revoked. An order to show cause for contempt may be issued and served upon any person who fails to surrender a registered process server identification card after a notice of revocation.

SEC. 16. Section 22355 of the Business and Professions Code is amended to read:

22355. (a) The county clerk shall maintain a register of process servers and assign a number and issue an identification card to each process server. The county clerk shall issue a temporary identification card, for no additional fee, to applicants who are required to submit Request for Live Scan forms for background checks to the Federal Bureau of Investigation and the Department of Justice. This card shall be valid for 120 days. If clearance is received from the Federal Bureau of Investigation and the Department of Justice within 120 days, the county clerk shall immediately issue a permanent identification card to the applicant. Upon request of the applicant, the permanent identification card shall be mailed to the applicant at his or her address of record. Upon renewal of a certificate of registration, the same number shall be assigned, provided there is no lapse in the period of registration.

(b) The temporary and permanent identification cards shall be  $3\frac{3}{8}$  inches by  $2\frac{1}{4}$  inches and shall contain at the top the title, "Registered Process Server;" followed by the registrant's name, address, registration number, date of expiration, and county of registration. In the case of a natural person, it shall also contain a photograph of the registrant in the lower left corner.

SEC. 17. Section 44024.5 of the Health and Safety Code is amended to read:

44024.5. (a) The department shall compile and maintain statistical and emissions profiles of motor vehicles that are subject to the motor vehicle inspection program. The department may use data from any source, including remote sensing data and other motor vehicle inspection program data, to develop and confirm the validity of the profiles.

(b) The department, in cooperation with the state board, shall perform periodic analyses of the statistical and emissions profiles created pursuant to subdivision (a). The department and the state board, in consultation with the Inspection and Maintenance Review Committee, may determine that, in addition to the vehicles excepted pursuant to Section 44011, certain other motor vehicles may be excepted from the biennial certification requirements of this chapter without significantly compromising the emission reduction objectives set forth in the State Implementation Plan (SIP).

(c) The department may conduct a pilot program to except from the biennial certification requirement those vehicles that may be jointly determined by the department and the state board, after consultation with the Inspection and Maintenance Review Committee, to warrant exception. The department shall provide written notification to the Legislature specifying the number of vehicles to be exempted as well as the geographic location and duration of the pilot program not less than 30 days prior to the implementation of the pilot program. The department shall submit the results of the pilot program to the state board and the Inspection and Maintenance Review Committee for review. Subject to the approval of the United States Environmental Protection Agency as an amendment to the SIP, the department may establish the exception program as a permanent program.

(d) For vehicles four model years old or less, the department shall use test data generated pursuant to Section 44014.7 to develop statistical and emissions profiles. The department may use data from any source, including remote sensing data, warranty repair and recall data, and other motor vehicle inspection program data, to develop and confirm the validity of the data. If the department and state board jointly determine that the emissions from a class of motor vehicles would potentially compromise the emission reduction objectives set forth in the SIP, the state board shall consider appropriate corrective action, including, but not limited to, recall pursuant to Section 43105.

SEC. 18. Section 44062.1 of the Health and Safety Code is amended to read:

44062.1. (a) The department shall offer a repair assistance program through entities authorized to perform referee functions.

(b) (1) The repair assistance program shall be available to the following eligible individuals:

(A) An individual who has a maximum income level of 200 percent of the federal poverty level, as published quarterly in the Federal Register by the Department of Health and Human Services, and who is either or both of the following:

(ii) The owner of a motor vehicle who was issued a notice to correct for an alleged violation of Section 27153 or 27153.5 of the Vehicle Code

involving that vehicle, if the vehicle subject to that notice has failed a smog check inspection subsequent to receiving the notice.

On and after January 1, 2009, the maximum income level prescribed for this subparagraph shall be set at 185 percent of the federal poverty level, as published quarterly in the Federal Register by the United States Department of Health and Human Services.

(2) The department shall offer repair cost assistance, funded by the High Polluter Repair or Removal Account in the Vehicle Inspection and Repair Fund created pursuant to subdivision (a) of Section 44091, to individuals based on the cost-effectiveness and air quality benefit of the needed repair. Repair assistance may include retesting costs and the costs of repairs to remedy the violation of Section 27153 or 27153.5 of the Vehicle Code.

(d) Repairs to motor vehicles that fail smog check inspections and are subsidized by the state through the program shall be performed at a repair station licensed and certified pursuant to Sections 44014 and 44014.2. Repair shall be based upon a preapproved list of repairs for cost-effective emission reductions or repairs to remedy a violation of Section 27153 or 27153.5 of the Vehicle Code.

(e) The qualified low-income motor vehicle owner receiving repair assistance pursuant to this section shall contribute a copayment, as determined by the department as specified in Section 44017.1, either in cash, or in emissions-related partial repairs as verified by a test-only station pursuant to paragraph (2) of subdivision (c) of Section 44015, or a combination thereof. For an owner of a motor vehicle described in subparagraph (B) of paragraph (1) of subdivision (b), the department shall impose a copayment at least equivalent to the amount imposed on a low-income individual receiving assistance under this section. If the repair cost exceeds the applicable repair cost limit, the department shall inform a motor vehicle owner of all options for compliance at the time of testing and repair.

(f) The department may increase its contribution toward the repair of a motor vehicle under this program in excess of the amount authorized for the repair of a high-polluter pursuant to paragraph (1) of subdivision (b) of Section 44094, if the department determines that the expenditure is cost effective.

(g) Notwithstanding subparagraph (A) of subdivision (b), the department may increase the maximum income level of a low-income motor vehicle owner under this program from the amount specified in this section, not to exceed 225 percent of the federal poverty level, if the department determines that the increase is capable of being supported within existing budget allocations.
